EXPERIENCE

IBM, Austin, TX — *Software Developer Intern*

May 2026 – August 2026

- Integrated Google Cloud STT/TTS into watsonx Orchestrate voice runtime; 2.23s median latency, 0% error
- Architected a direct gRPC streaming path via Pipecat, bypassing the AI Gateway hop
- Migrated YAML voice config to PostgreSQL CRUD APIs supporting live in-session updates
- Extended platform auth for service-account credentials across 5 speech providers

City of Austin CTM, Austin, TX — *Software Engineer Intern*

June 2025 - July 2025

- Built a full-stack public safety platform using **React & TypeScript**, processed **500+** live crime reports daily
- Architected a **Firebase** synchronization layer & GraphHopper routing algorithms to deliver safety alerts and 200+ routes
- Secured “**Overall Best App**” award in a 6 week sprint out of 8 teams after pitching the MVP to **Capital Factory** investors

City of Austin CTM, Austin, TX — *Software Engineer Intern*

June 2023 - July 2023

- Co-developed a **full-stack** food rescue platform connecting local restaurants with shelters for underserved communities
- Automated data ingestion pipelines using **Python** (Requests) to parse public restaurant APIs into a **SQL** database

PROJECTS

TX Convergent Portal, Austin, TX — *Software Engineer*

June 2026 - Present

- Built a full-stack membership platform (Next.js, React 19, TypeScript, PostgreSQL) for **300+** members with RBAC via RLS
- Engineered HMAC-SHA256 rotating-QR check-in with a live camera scanner; fixed validation, widening redemption 2.5s to 10s
- Built an idempotent Node.js ETL pipeline migrating 3 semesters of member records via natural-key upserts

StudyMon, Austin, TX — *Full Stack Developer*

March 2026

- Built a gamified study tracker using **Next.js & Tailwind CSS** with a Pokémon themed creature collection for UT study spots.
- Integrated an AI study assistant using Anthropic and OpenAI **APIs** with tool-calling to recommend personalized study spots.
- Built a full-stack data layer with **Supabase RLS**, server actions for session logic, and React Leaflet for campus navigation.

REFIND | Texas Convergent, Austin, TX — *Software Engineer*

Feb 2026 - Present

- Built a B2B event analytics platform (Next.js) letting CPG brands attribute ROI across 80 events and 250+ tracked attendees
- Designed a multi-tenant PostgreSQL schema with tenant-scoped authorization, isolating 10 brand workspaces
- Implemented sentiment and conversion-funnel aggregation over live attendee event streams, processing 300+ interactions into per-campaign metrics

LEADERSHIP & COMMUNITY INVOLVEMENT

Texas Convergent — *Forge Tech Lead, Memberships Chair (Exec)*

May 2026 – Present

- Leading engineering for a 13-person team building an event-to-image retrieval system for Pax Historia (YC-backed AI game studio), benchmarking lexical, embedding, and hybrid multimodal retrieval
- Serve on the exec board as Memberships Chair for a **300+** member org, handling recruitment strategy and running the application, review, and team-selection process each semester

Texas BAXA — *Corporate Director*

April 2026 - Present

- Secured \$1000+ in corporate sponsorship across 4 companies, coordinating recruitment events and case competitions connecting 150+ members with industry recruiters
